{Soft Vessel} HEMP BREAD BASKET / BAG

The bread basket is made of 100% fine hemp fabric and has a double bag structure. When a heated pouch stuffed with grain is placed in the inside pocket of the bag, it keeps the bread warm for the duration of the meal. Hemp is organic product and can heal the world.

MOLFO

Molfo produces products that treat both people and the planet by selecting eco-friendly materials and technologies, and an ethical trade system. We offer you natural and truly luxurious lifestyle products. We think adapting to contemporary life and proposing beautiful, future-directed solutions is the best kind of modern design. It gives us great joy to share Modern Life Style Products with you. The company is founded by Hiromi Kim in 2014.

HIROMI KIM

She was born in Kyoto, Japan. She has studied Interior Architecture and Industrial Design in both Japan and Italy. She has spent more than ten years in multicultural environments.

Her experience in designing is spread across various fields such as the manufacturing industry, architectural industry, and academics.

Her views are geared toward the construction of a sustainable society. Her designs are not merely surface and are made for the genuine pleasure of humanity. She is a passionate designer/director proposing solutions for a modern life style.
